**K. OF C. BALL.**  
 San Jose Council Conducts Brilliant Social Affair in The Armory.

The thirteenth annual ball of San Jose council Knights of Columbus was held in the state armory Monday night. P. D. Donahue decorated the armory and the hall never presented a more beautiful spectacle. The bare windows were draped, the outer curtains drawn back with pink ribbons. At the entrance to each box were square posts topped by a round globe. These globes furnished practically all the light and were clustered at each side of the band platform at the end of the hall.

Pink and white cheese cloth was draped in squares across the ceiling of the hall and between each square a lattice depended into which were thrust pink roses and bunches of laurel. Hanging baskets of laurel and roses swung from the ceiling and the boxes were a mass of flowers and color. The success of the affair was due to the untiring efforts of the general committee which was as follows:

Harry Cotter, chairman, T. Frank Cunningham, T. Francis Keon, A. T. McQuillan, Frank McClary, Joseph McClard, Luke Allam, Eugene Curran, George W. Hickay, Edward Grady.

Hickay's orchestra of fourteen pieces rendered a concert from 8.30 to 9 o'clock. At 9.15 the grand march took place led by District Deputy of the Knights of Columbus, Mrs. Vaughan; Grand Knight Thomas Berth and Mrs. Berth were second in line followed by Mayor Dunn and Mrs. Dunn.

**What Thin Folks Should Do To Gain Weight**

Physician's Advice For Thin, Underdeveloped Men and Women.

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs, who have tried advertised flesh-makers, food-puffs, physical culture stunts and tub-creams, resulting in no permanent gain in weight and thinness will make them feel that their case is not hopeless. A recently discovered restorative makes fat grow after years of thinness and is so effective in repairing the waste of sickness or faulty digestion and for strengthening the system, that this remarkable discovery is called Sargol. Six strength-giving, fat-producing elements of acknowledged merit have been combined in this perfect preparation, which is endorsed by eminent physicians and used by prominent people everywhere. It is absolutely harmless, inexpensive and efficient.

A month's systematic use of Sargol produces flesh and strength by correcting faults of digestion and by supplying highly concentrated fats to the blood. Increased nourishment is obtained from the food eaten, and the additional fats that thin people need are provided. The food is digested and the leading elements of Sargol are absorbed and are a large demand for it.

While this new preparation is even more effective as a nerve-tonic and tonic for the system, it is also a tonic for young people unless they wish to gain at least ten pounds of flesh.
